

Adastral Presents: SEL launch

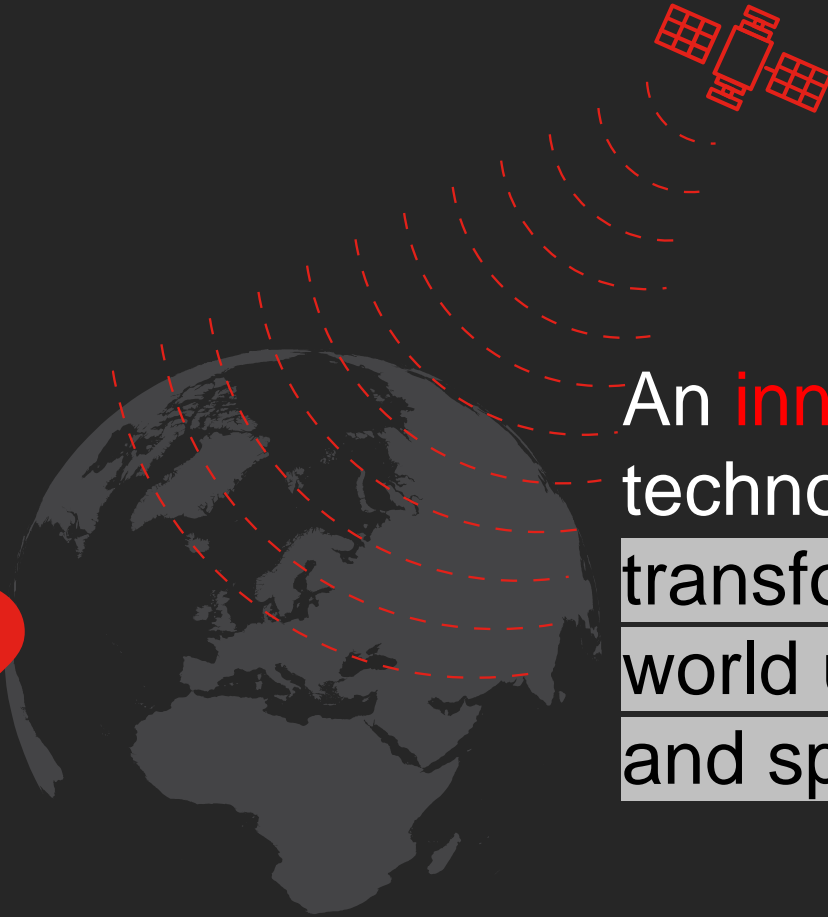

John Abbott - CEO
Satellite Applications Catapult
25th January 2024

We work with

Who are **we**?

An **innovation** and technology company transforming the way the world uses satellite data and space technology.

WE HELP ORGANISATIONS GROW THEIR BUSINESS

We help organisations to use satellite applications to grow their business in the UK and internationally.

WE ARE INDEPENDENT

We bring together industry, researchers, end-users and government to explore and develop new ideas.

WE ARE GOVERNMENT BACKED

We are partly-funded by the Government and work closely with Innovate UK, UK Space Agency, UK Science & Innovation Network, and other public bodies.

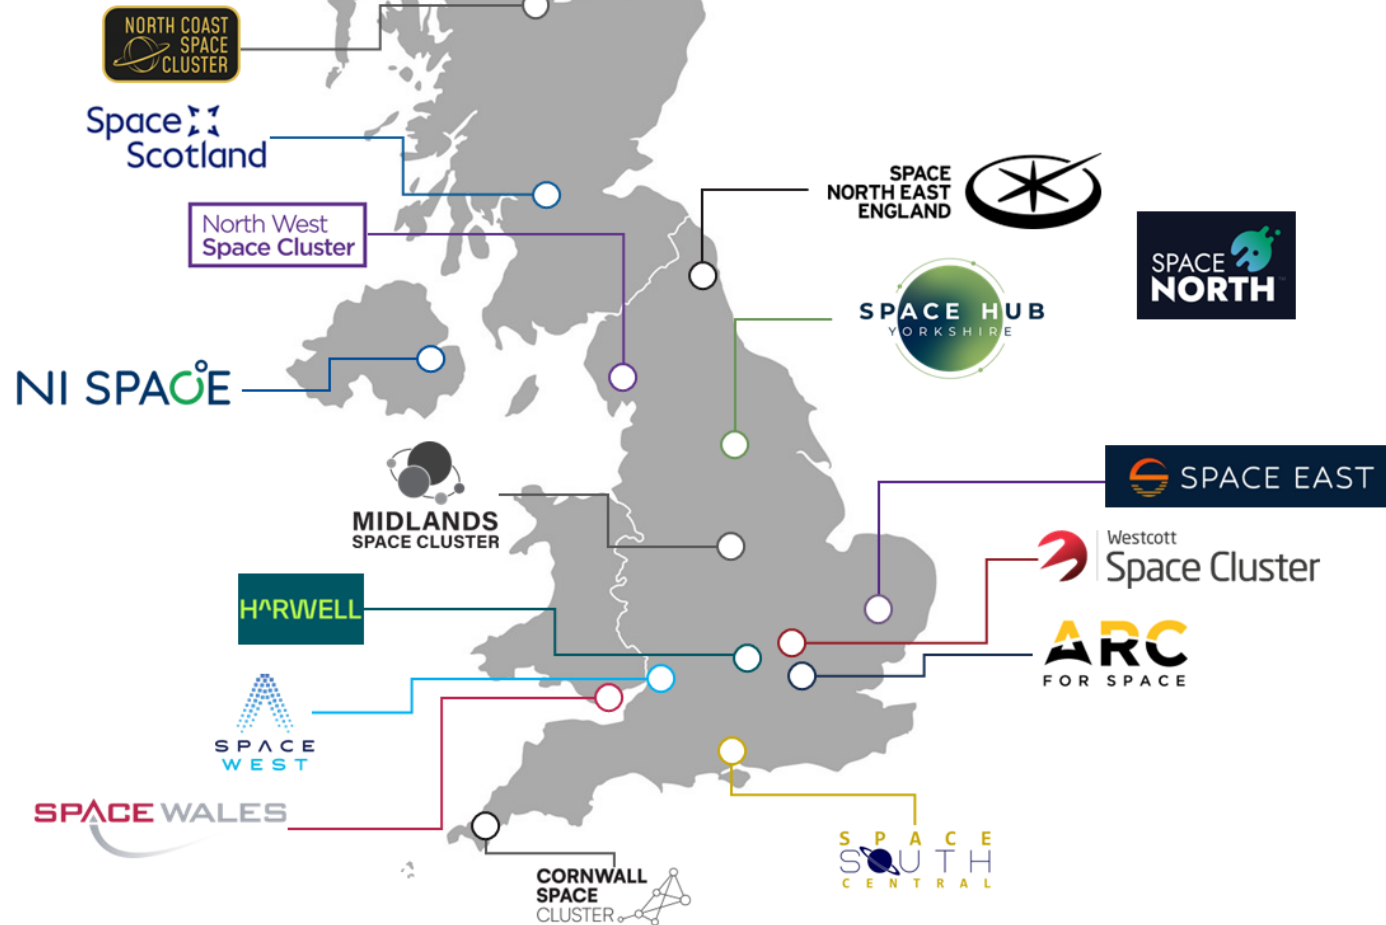

Satellite Applications Catapult

Our Mission:

**To innovate for a better world,
empowered by space.**

UK Ecosystem

Satellite Applications Catapult 2023 v3.7
UK Space Ecosystem clusters: Subject to change

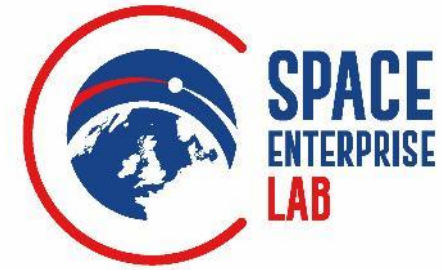

Thriving and Connected Ecosystem

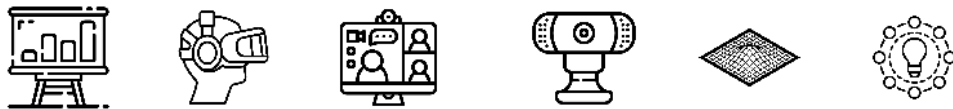

- **Supporting businesses** to start up, scale and innovate
- **Connecting communities** to benefit from space
- **Stimulating growth** of national capabilities

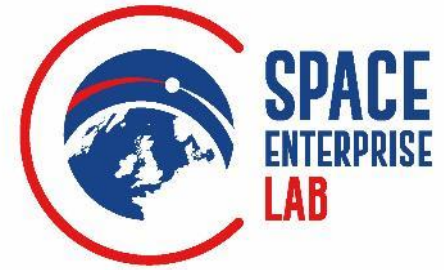

Local Places for Space Innovation

- Space Enterprise Labs are **free-to-use** and **digitally inclusive**
- Enabling seamless delivery of:
 - Meetings to **collaborate and innovate**
 - Business support sessions to **scale up**
 - Capability demonstrations and opportunity development workshops to **benefit from satellite data and space technology**
